# Subject Index

## Volume 13

### *Acacia* sp.

Residual effects of glyphosate herbicide in ecological restoration (Cornish and Burgin), 695

### Acid grassland

Are sulfurous soil amendments ( $S^0$ ,  $Fe^{(II)}SO_4$ ,  $Fe^{(III)}SO_4$ ) an effective tool in the restoration of heathland and acidic grassland after four decades of rock phosphate fertilization? (Tibbett and Diaz), 83

### Acid precipitation

An ecologically based approach to identifying restoration priorities in an acid-impacted watershed (Petty and Thorne), 348

### Adaptive phenotypic plasticity

The lack of favorable responses of an endangered pitcher plant to habitat restoration (Brewer), 710

### *Agropyron desertorum*

Establishing native grasses in a Big sagebrush-dominated site: an intermediate restoration step (Huber-Sannwald and Pyke), 292

### Allelochemical resistance

Screening of grassland plants for restoration after Spotted knapweed invasion (Perry et al), 725

### Allelopathy

Screening of grassland plants for restoration after Spotted knapweed invasion (Perry et al), 725

### *Alliaria petiolata*

Concurrent management of an exotic species and initial restoration efforts in forests (Murphy), 584

### Alloway Creek

Restoration of arthropod assemblages in a *Spartina* salt marsh following removal of the inva-

sive plant *Phragmites australis* (Gratton and Denno), 358

### Aluminum

Are sulfurous soil amendments ( $S^0$ ,  $Fe^{(II)}SO_4$ ,  $Fe^{(III)}SO_4$ ) an effective tool in the restoration of heathland and acidic grassland after four decades of rock phosphate fertilization? (Tibbett and Diaz), 83

### Amendments

Establishment of a vegetation cover on tundra kimberlite mine tailings: 1. A greenhouse study (Reid and Naeth), 594

Establishment of a vegetation cover on tundra kimberlite mine tailings: 2. A field study (Reid and Naeth), 602

### *Andropogon gerardii*

Flowering phenology and genetic similarity among local and recently introduced populations of *Andropogon gerardii* in Ohio (Selbo and Snow), 441

### *Angophora* sp.

Residual effects of glyphosate herbicide in ecological restoration (Cornish and Burgin), 695

### Annual grassland

Restoration of native perennials in a California annual grassland after prescribed spring burning and solarization (Moyes et al), 659

### *Anthoxanthum nitens*

Reestablishing roots of a Mohawk community and a culturally significant plant: Sweetgrass (Shebitz and Kimmerer), 257

### Appalachian streams

An ecologically based approach to identifying restoration priorities in an acid-impacted watershed (Petty and Thorne), 348

### Arid

Effects of multispecies clumping on survival of three succulent plant species translocated onto mine spoil in the Succulent Karoo desert, South Africa (Blignaut and Milton), 15

### Arrested succession

Incorporating restoration in sustainable forestry management: using pine-bark mulch to improve native species establishment on tephra deposits (Blanco-García and Lindig-Cisneros), 703

### *Artemisia californica*

Restoration of native perennials in a California annual grassland after prescribed spring burning and solarization (Moyes et al), 659

### *Artemisia tridentata*

Establishing native grasses in a Big sagebrush-dominated site: an intermediate restoration step (Huber-Sannwald and Pyke), 292

Long-term effects of biosolids on revegetation of disturbed sagebrush steppe in northwestern Colorado (Paschke et al), 545

### Arthropod community structure

Restoration of arthropod assemblages in a *Spartina* salt marsh following removal of the invasive plant *Phragmites australis* (Gratton and Denno), 358

### Ash Meadows

Habitat restoration as a means of controlling non-native fish in a Mojave Desert oasis (Scoppettone et al), 247

### Aspen

Removal of encroaching conifers to regenerate degraded aspen stands in the Sierra Nevada (Jones et al), 373

### Asulox

Recovery of moorland vegetation after aerial spraying of bracken (*Pteridium aquilinum* (L.) Kuhn) with asulam (Pakeman et al), 718

### Auto- and cross-catalytic networks

Toward a transdisciplinary science of ecological and cultural landscape restoration (Naveh), 228

- Autopoiesis**  
Toward a transdisciplinary science of ecological and cultural landscape restoration (Naveh), 228
- Bamboo**  
Establishment of the woody grass *Arundinaria gigantea* for riparian restoration (Dattilo and Rhoades), 616
- Bank Swallow**  
Importance of hydrologic and landscape heterogeneity for restoring Bank Swallow (*Riparia riparia*) colonies along the Sacramento River, California (Moffatt et al), 391
- Bareroot**  
Effects of flooding regime and seedling treatment on early survival and growth of Nuttall oak (Burkett et al), 471
- Basal area**  
The role of revegetation for rehabilitation of sodic soils in semi-arid subtropical forest, India (Tripathi and Singh), 29
- Basketry**  
Reestablishing roots of a Mohawk community and a culturally significant plant: Sweetgrass (Shebitz and Kimmerer), 257
- Bayesian analysis**  
Ecological restoration and large-scale ecological disturbance: the effects of drought on the response by fish to a habitat restoration experiment (Bond and Lake), 39
- Beach nourishment**  
Beach nourishment and coastal habitats: research needs to improve compatibility (Nordstrom), 215
- Big bluestem**  
Flowering phenology and genetic similarity among local and recently introduced populations of *Andropogon gerardii* in Ohio (Selbo and Snow), 441
- Biodiversity**  
Restoring lepidopteran communities to oak savannas: contrast-  
ing influences of habitat quantity and quality (Summerville et al), 120
- Biomanipulation**  
Implications of food web interactions for restoration of Missouri Ozark glade habitats (Van Zandt et al), 312
- Biomass**  
The role of revegetation for rehabilitation of sodic soils in semi-arid subtropical forest, India (Tripathi and Singh), 29
- Biosphere landscapes**  
Toward a transdisciplinary science of ecological and cultural landscape restoration (Naveh), 228
- Bird seed dispersal**  
Restoration of *Araucaria* forest: the role of perches, pioneer vegetation, and soil fertility (Zanini and Ganade), 507
- Birds**  
Avian use of restoration plantings along a creek linking rainforest patches on the Atherton Tablelands, North Queensland (Jansen), 275
- Blue lupine**  
Maintaining critical habitat in a heavily managed landscape: effects of power line corridor management on Karner blue butterfly (*Lycaeides melissa samuelis*) habitat (Forrester et al), 488
- Bluebunch wheatgrass**  
Effect of planting season, bunchgrass species, and neighbor control on the success of transplants for grassland restoration (Page and Bork), 651
- Bog**  
*Polytrichum strictum* as a solution to frost heaving in disturbed ecosystems: a case study with milled peatlands (Groeneveld and Rochefort), 74
- Book reviews**  
*Assembly Rules and Restoration Ecology: Bridging the Gap Between Theory and Practice*, by Temperton et al (Edwards), 580–581
- Conservation Biology: Foundations, Concepts, Applications*, by Van Dyke and *A Workbook in Conservation Biology: Solving Practical Problems in Conservation* (With Contributing Authors) (Boorse), 426–427
- The Ecology and Management of Wood in World Rivers*, by Gregory et al (Earsom), 736–737
- Floating Islands: A Global Bibliography (with an Edition and Translation of G. C. Munz's Exertacio academica de insulis natintibus (1711))*, by van Duzer (Margóczki) 738–739
- Great Basin Riparian Ecosystems: Ecology, Management, and Restoration*, edited by Chambers and Miller (Auble), 237–238
- The Historical Ecology Handbook: A Restorationist's Guide to Reference Ecosystems*, by Egan and Howell (Stevens), 235–236
- Rehabilitation and Restoration of Degraded Forests*, by Lamb and Gilmour (Chauhan), 578–579
- Wetland Restoration Handbook for Wisconsin Landowners*, 2nd Edition, by Thompson and Luthin (Carpenter), 425
- Boreal forest**  
Naturally saline boreal communities as models for reclamation of saline oil sand tailings (Purdy et al), 667
- Brassica nigra**  
Restoration of native perennials in a California annual grassland after prescribed spring burning and solarization (Moyes et al), 659
- Brazil subtropical forest**  
Restoration of *Araucaria* forest: the role of perches, pioneer vegetation, and soil fertility (Zanini and Ganade), 507
- Bromus diandrus**  
Restoration of native perennials in a California annual grassland

- after prescribed spring burning and solarization (Moyes et al), 659
- Brook trout**  
An ecologically based approach to identifying restoration priorities in an acid-impacted watershed (Petty and Thorne), 348
- Bryophyte**  
*Polytrichum strictum* as a solution to frost heaving in disturbed ecosystems: a case study with milled peatlands (Groeneweld and Rochefort), 74
- Buffer zone**  
Establishment of the woody grass *Arundinaria gigantea* for riparian restoration (Dattilo and Rhoades), 616
- Bunchgrass mortality**  
Effect of planting season, bunchgrass species, and neighbor control on the success of transplants for grassland restoration (Page and Bork), 651
- Burning**  
Planning for restoration: a decision analysis approach to prioritization (Cipollini et al), 460  
Fire and litter effects on seedling establishment in western Oregon upland prairies (Maret and Wilson), 562
- Bursera**  
Establishment and growth of living fence species: an overlooked tool for the restoration of degraded areas in the tropics (Zahawi), 92
- Bushland restoration**  
Residual effects of glyphosate herbicide in ecological restoration (Cornish and Burgin), 695
- Calcium**  
Catchment liming to restore degraded, acidified heathlands and moorland pools (Dorland et al), 302
- Calluna vulgaris**  
Recovery of moorland vegetation after aerial spraying of bracken (*Pteridium aquilinum* (L.) Kuhn) with asulam (Pakeman et al), 718
- Canebrake**  
Establishment of the woody grass *Arundinaria gigantea* for riparian restoration (Dattilo and Rhoades), 616
- Carbon retention**  
Soil biological and chemical properties in restored perennial grassland in California (Potthoff et al), 61
- Carnivorous plant**  
*Dionaea muscipula* (Venus flytrap) establishment, release, and response of associated species in mowed patches on the rims of Carolina bays (Luken), 678  
The lack of favorable responses of an endangered pitcher plant to habitat restoration (Brewer), 710
- Carolina bay**  
*Dionaea muscipula* (Venus flytrap) establishment, release, and response of associated species in mowed patches on the rims of Carolina bays (Luken), 678
- Catchment liming**  
Catchment liming to restore degraded, acidified heathlands and moorland pools (Dorland et al), 302
- Cattle enclosure**  
Effect of grazing on restoration of endemic dwarf pine (*Pinus culminicola* Andressen et Beaman) populations in northeastern Mexico (Jiménez et al), 103
- Cenchrus ciliaris**  
Experimental restoration of an indigenous Hawaiian grassland after invasion by Buffel grass (*Cenchrus ciliaris*) (Daehler and Goergen), 380
- Centaurea maculosa**  
Plant functional group diversity as a mechanism for invasion resistance (Pokorny et al), 448  
Screening of grassland plants for restoration after Spotted knapweed invasion (Perry et al), 725
- Centaurea solstitialis**  
*Centaurea solstitialis* invasion success is influenced by *Nassella* pulchra size (Morgan and Rice), 524
- Chemical inhibition**  
Screening of grassland plants for restoration after Spotted knapweed invasion (Perry et al), 725
- Chronosequence**  
Recovery of moorland vegetation after aerial spraying of bracken (*Pteridium aquilinum* (L.) Kuhn) with asulam (Pakeman et al), 718
- Clay turbidity**  
Clay-turbid interactions may not cascade—a reminder for lake managers (Horppila and Liljendahl-Nurminen), 242
- Climate**  
A climate-based approach to the restoration of fire-dependent ecosystems (Beckage et al), 429
- Clonal growth**  
Spatial distribution of *Spartina pectinata* transplants to restore wet prairie (Fraser and Kindscher), 144
- Clumping**  
Effects of multispecies clumping on survival of three succulent plant species translocated onto mine spoil in the Succulent Karoo desert, South Africa (Blignaut and Milton), 15
- CO<sub>2</sub> emissions**  
Soil biological and chemical properties in restored perennial grassland in California (Potthoff et al), 61
- Coastal dune forests**  
Coastal dune forest development and the regeneration of millipede communities (Redi et al), 284
- Coastal landforms**  
Beach nourishment and coastal habitats: research needs to improve compatibility (Nordstrom), 215
- Colonization limitation**  
Patterns of plant species diversity in remnant and restored tallgrass prairies (Polley et al), 480

- Community ecology**  
Naturally saline boreal communities as models for reclamation of saline oil sand tailings (Purdy et al), 667
- Competition**  
Concurrent management of an exotic species and initial restoration efforts in forests (Murphy), 584
- Bullying the bullies: the selective control of an exotic, invasive annual (*Rapistrum rugosum*) by oversowing with a competitive native species (*Gaillardia pulchella*) (Simmons), 609
- The lack of favorable responses of an endangered pitcher plant to habitat restoration (Brewer), 710
- Complexity**  
Assessing simple versus complex restoration strategies for industrially disturbed forests (Rayfield et al), 639
- Conceptions of sustainability**  
Visions of nature and environmental sustainability: shellfish harvesting in the Dutch Wadden Sea (Swart and van der Windt), 183
- Conifer ingrowth**  
Effect of planting season, bunchgrass species, and neighbor control on the success of transplants for grassland restoration (Page and Bork), 651
- Connectivity**  
Restoring lepidopteran communities to oak savannas: contrasting influences of habitat quantity and quality (Summerville et al), 120
- Conservation planning**  
Planning for restoration: a decision analysis approach to prioritization (Cipollini et al), 460
- Conservation Reserve Program**  
Flowering phenology and genetic similarity among local and recently introduced populations of *Andropogon gerardii* in Ohio (Selbo and Snow), 441
- Container**  
Effects of flooding regime and seedling treatment on early survival and growth of Nuttall oak (Burkett et al), 471
- Conventional harvest practices**  
Removal of encroaching conifers to regenerate degraded aspen stands in the Sierra Nevada (Jones et al), 373
- Corridor**  
Avian use of restoration plantings along a creek linking rainforest patches on the Atherton Tablelands, North Queensland (Jansen), 275
- Cost-benefit analysis**  
An ecologically based approach to identifying restoration priorities in an acid-impacted watershed (Petty and Thorne), 348
- Cover crops**  
Reestablishing roots of a Mohawk community and a culturally significant plant: Sweetgrass (Shebitz and Kimmerer), 257
- Crassostrea virginica***  
The potential for created oyster shell reefs as a sustainable shoreline protection strategy in Louisiana (Piazza et al), 499
- Cyprinodon nevadensis***  
Habitat restoration as a means of controlling non-native fish in a Mojave Desert oasis (Scopettone et al), 247
- Degraded rangelands**  
Establishing native grasses in a Big sagebrush-dominated site: an intermediate restoration step (Huber-Sannwald and Pyke), 292
- Denitrification enzyme activity**  
Hydrologic, edaphic, and vegetative responses to microtopographic reestablishment in a restored wetland (Bruland and Richardson), 515
- Diamond mine**  
Establishment of a vegetation cover on tundra kimberlite mine tailings: 1. A greenhouse study (Reid and Naeth), 594
- Establishment of a vegetation cover on tundra kimberlite mine tailings: 2. A field study (Reid and Naeth), 602
- Disturbance**  
Restoring lepidopteran communities to oak savannas: contrasting influences of habitat quantity and quality (Summerville et al), 120
- Assessing simple versus complex restoration strategies for industrially disturbed forests (Rayfield et al), 639
- Diversity**  
Aboveground biomass removal by burning and raking increases diversity in a reconstructed prairie (Tix and Charvat), 20
- Restoration success: how is it being measured? (Ruiz-Jaen and Aide), 569
- Diversity indices**  
The role of revegetation for rehabilitation of sodic soils in semi-arid subtropical forest, India (Tripathi and Singh), 29
- Docks**  
Balancing the need to develop coastal areas with the desire for an ecologically functioning coastal environment: is net ecosystem improvement possible? (Thom et al), 193
- Dredge and fill**  
Beach nourishment and coastal habitats: research needs to improve compatibility (Nordstrom), 215
- Dual mandate**  
Sustainable coastal development: the dual mandate and a recommendation for "commerce managed areas" (Weinstein and Reed), 174
- Early successional processes**  
Restoration of *Araucaria* forest: the role of perches, pioneer vegetation, and soil fertility (Zanini and Ganade), 507
- Ecological monitoring**  
Beach nourishment and coastal habitats: research needs to

- improve compatibility (Nordstrom), 215
- Ecological processes**  
Restoration success: how is it being measured? (Ruiz-Jaen and Aide), 569
- Ecological rehabilitation**  
Ecological rehabilitation of the Schelde estuary (The Netherlands–Belgium; northwest Europe): linking ecology, safety against floods, and accessibility for port development (Van den Berg et al), 204
- Ecological restoration**  
The two-culture problem: ecological restoration and the integration of knowledge (Higgs), 159  
Restoring fire to long-unburned *Pinus palustris* ecosystems: novel fire effects and consequences for long-unburned ecosystems (Varner et al), 536
- Ecosystem attributes**  
Restoration success: how is it being measured? (Ruiz-Jaen and Aide), 569
- Ecosystem management**  
A climate-based approach to the restoration of fire-dependent ecosystems (Beckage et al), 429
- Ecosystems**  
On sustainability, estuaries, and ecosystem restoration: the art of the practical (Baird), 154
- Ecotype**  
"How local is local?"—a review of practical and conceptual issues in the genetics of restoration (McKay et al), 432
- Edge effects**  
Concurrent management of an exotic species and initial restoration efforts in forests (Murphy), 584
- Edge of Appalachia**  
Planning for restoration: a decision analysis approach to prioritization (Cipollini et al), 460
- Eelgrass**  
Balancing the need to develop coastal areas with the desire for an ecologically functioning coastal environment: is net ecosystem improvement possible? (Thom et al), 193
- Effectiveness monitoring**  
Removal of encroaching conifers to regenerate degraded aspen stands in the Sierra Nevada (Jones et al), 373
- El Niño**  
A climate-based approach to the restoration of fire-dependent ecosystems (Beckage et al), 429
- Endangered species**  
The lack of favorable responses of an endangered pitcher plant to habitat restoration (Brewer), 710
- Endemic**  
Capsule treatments to enhance seedling emergence of *Gaura neomexicana* ssp. *coloradensis* (Burgess et al), 8
- ENSO**  
A climate-based approach to the restoration of fire-dependent ecosystems (Beckage et al), 429
- Erosion control**  
Responses of nondormant black willow (*Salix nigra*) cuttings to preplanting soaking and soil moisture (Pezeshki et al), 1
- Estuaries**  
On sustainability, estuaries, and ecosystem restoration: the art of the practical (Baird), 154
- Exotic shrubs**  
Forest restoration in urbanizing landscapes: interactions between land uses and exotic shrubs (Borgmann and Rodewald), 334
- Facilitation**  
Effects of multispecies clumping on survival of three succulent plant species translocated onto mine spoil in the Succulent Karoo desert, South Africa (Blignaut and Milton), 15  
Restoration of *Araucaria* forest: the role of perches, pioneer vegetation, and soil fertility (Zanini and Ganade), 507
- Filter strip**  
Establishment of the woody grass *Arundinaria gigantea* for riparian restoration (Dattilo and Rhoades), 616
- Fire**  
A climate-based approach to the restoration of fire-dependent ecosystems (Beckage et al), 429  
Restoration of native perennials in a California annual grassland after prescribed spring burning and solarization (Moyes et al), 659
- Fire suppression**  
Restoring fire to long-unburned *Pinus palustris* ecosystems: novel fire effects and consequences for long-unburned ecosystems (Varner et al), 536  
The lack of favorable responses of an endangered pitcher plant to habitat restoration (Brewer), 710
- Fire-dependent ecosystems**  
The lack of favorable responses of an endangered pitcher plant to habitat restoration (Brewer), 710
- Fish**  
The potential for created oyster shell reefs as a sustainable shoreline protection strategy in Louisiana (Piazza et al), 499
- Flooding**  
Effects of flooding regime and seedling treatment on early survival and growth of Nuttall oak (Burkett et al), 471
- Floodplain forest**  
Establishment of the woody grass *Arundinaria gigantea* for riparian restoration (Dattilo and Rhoades), 616
- Flower visitation**  
The restoration of plant-pollinator interactions in hay meadows (Forup and Memmott), 265
- Flowering phenology**  
Flowering phenology and genetic similarity among local and recently introduced populations of *Andropogon gerardii* in Ohio (Selbo and Snow), 441
- Food web management**  
Clay-turbid interactions may not cascade—a reminder for lake

- managers (Horppila and Liljendahl-Nurminen), 242
- Forest community**
- The role of revegetation for rehabilitation of sodic soils in semi-arid subtropical forest, India (Tripathi and Singh), 29
- Forest fragmentation**
- Concurrent management of an exotic species and initial restoration efforts in forests (Murphy), 584
- Forest restoration**
- Effects of tree guards and weed mats on the establishment of native tree seedlings: implications for forest restoration in Hong Kong, China (Lai and Wong), 138
- Forest restoration in urbanizing landscapes: interactions between land uses and exotic shrubs (Borgmann and Rodewald), 334
- Functional group diversity**
- Plant functional group diversity as a mechanism for invasion resistance (Pokorny et al), 448
- Functional groups**
- Patterns of plant species diversity in remnant and restored tallgrass prairies (Polley et al), 480
- Fusarium**
- Effects of mycorrhizae and non-target organisms on restoration of a seasonal tropical forest in Quintana Roo, Mexico: factors limiting tree establishment (Allen et al), 325
- Gaillardia pulchella**
- Bullying the bullies: the selective control of an exotic, invasive annual (*Rapistrum rugosum*) by oversowing with a competitive native species (*Gaillardia pulchella*) (Simmons), 609
- Gene flow**
- Flowering phenology and genetic similarity among local and recently introduced populations of *Andropogon gerardii* in Ohio (Selbo and Snow), 441
- Genetic diversity**
- Flowering phenology and genetic similarity among local and recently introduced populations of *Andropogon gerardii* in Ohio (Selbo and Snow), 441
- recently introduced populations of *Andropogon gerardii* in Ohio (Selbo and Snow), 441
- Geostatistics**
- Diminishing spatial heterogeneity in soil organic matter across a prairie restoration chronosequence (Lane and BassiriRad), 403
- Germination**
- Capsule treatments to enhance seedling emergence of *Gaura neomexicana* ssp. *coloradensis* (Burgess et al), 8
- Giant cane**
- Establishment of the woody grass *Arundinaria gigantea* for riparian restoration (Dattilo and Rhoades), 616
- Gliricidia**
- Establishment and growth of living fence species: an overlooked tool for the restoration of degraded areas in the tropics (Zahawi), 92
- Glyphosate**
- Residual effects of glyphosate herbicide in ecological restoration (Cornish and Burgin), 695
- Grass competition**
- Effects of unseeded areas on species richness of coal mines reclaimed with municipal biosolids (Halofsky and McCormick), 630
- Grassland**
- Experimental restoration of an indigenous Hawaiian grassland after invasion by Buffel grass (*Cenchrus ciliaris*) (Daehler and Goergen), 380
- Diminishing spatial heterogeneity in soil organic matter across a prairie restoration chronosequence (Lane and BassiriRad), 403
- Soil heterogeneity effects on tallgrass prairie community heterogeneity: an application of ecological theory to restoration ecology (Baer et al), 413
- Fire and litter effects on seedling establishment in western Oregon upland prairies (Maret and Wilson), 562
- Grassland restoration**
- Soil biological and chemical properties in restored perennial grassland in California (Potthoff et al), 61
- Centaurea solstitialis* invasion success is influenced by *Nassella pulchra* size (Morgan and Rice), 524
- Effect of planting season, bunch-grass species, and neighbor control on the success of transplants for grassland restoration (Page and Bork), 651
- Grasslands**
- Plant functional group diversity as a mechanism for invasion resistance (Pokorny et al), 448
- Grazing**
- Effect of grazing on restoration of endemic dwarf pine (*Pinus culminicola* Andresen et Beaman) populations in northeastern Mexico (Jiménez et al), 103
- Habitat manipulation**
- Habitat restoration as a means of controlling non-native fish in a Mojave Desert oasis (Scoppettone et al), 247
- Habitat restoration**
- Beach nourishment and coastal habitats: research needs to improve compatibility (Nordstrom), 215
- Restoration of arthropod assemblages in a *Spartina* salt marsh following removal of the invasive plant *Phragmites australis* (Gratton and Denno), 358
- Replacing sources with sinks: when do populations go down the drain? (Keagy et al), 529
- Habitat structure**
- Ecological restoration and large-scale ecological disturbance: the effects of drought on the response by fish to a habitat restoration experiment (Bond and Lake), 39
- Hawaii**
- Experimental restoration of an indigenous Hawaiian grassland after invasion by Buffel grass (*Cenchrus ciliaris*) (Daehler and Goergen), 380

**Heathland**

Are sulfurous soil amendments ( $S^0$ ,  $Fe^{(II)}SO_4$ ,  $Fe^{(III)}SO_4$ ) an effective tool in the restoration of heathland and acidic grassland after four decades of rock phosphate fertilization? (Tibbett and Diaz), 83

**Heathlands**

Catchment liming to restore degraded, acidified heathlands and moorland pools (Dorland et al.), 302

**Heavy metal**

Natural colonization of plants on five lead/zinc mine tailings in southern China (Shu et al.), 49

**Herbicide**

The interaction between science and policy in the control of *Phragmites* in oligohaline marshes of Delaware Bay (Teal and Peterson), 223

Recovery of moorland vegetation after aerial spraying of bracken (*Pteridium aquilinum* (L.) Kuhn) with asulam (Pakeman et al.), 718

**Herbivory**

Effects of mycorrhizae and non-target organisms on restoration of a seasonal tropical forest in Quintana Roo, Mexico: factors limiting tree establishment (Allen et al.), 325

**Heteropogon contortus**

Experimental restoration of an indigenous Hawaiian grassland after invasion by Buffel grass (*Cenchrus ciliaris*) (Daehler and Goergen), 380

**Hierochloe odorata**

Reestablishing roots of a Mohawk community and a culturally significant plant: Sweetgrass (Shebitz and Kimmerer), 257

**Honeysuckle**

Forest restoration in urbanizing landscapes: interactions between land uses and exotic shrubs (Borgmann and Rodewald), 334

**Hong Kong**

Effects of tree guards and weed mats on the establishment of

native tree seedlings: implications for forest restoration in Hong Kong, China (Lai and Wong), 138

**Hydrologic regime**

Hydrologic regime controls soil phosphorus fluxes in restoration and undisturbed wetlands (Aldous et al.), 341

**Hydrology**

Hydrologic, edaphic, and vegetative responses to microtopographic reestablishment in a restored wetland (Bruland and Richardson), 515

**Importance value index**

The role of revegetation for rehabilitation of sodic soils in semi-arid subtropical forest, India (Tripathi and Singh), 29

**Inoculation**

Effects of flooding regime and seedling treatment on early survival and growth of Nuttall oak (Burkett et al.), 471

**Inorganic nitrogen**

Hydrologic, edaphic, and vegetative responses to microtopographic reestablishment in a restored wetland (Bruland and Richardson), 515

**Integrated management**

Ecological rehabilitation of the Schelde estuary (The Netherlands–Belgium; northwest Europe): linking ecology, safety against floods, and accessibility for port development (Van den Bergh et al.), 204

**Invasion**

*Centaurea solstitialis* invasion success is influenced by *Nassella pulchra* size (Morghan and Rice), 524

**Invasion biology**

Invading monotypic stands of *Phalaris arundinacea*: a test of fire, herbicide, and woody and herbaceous native plant groups (Foster and Wetzel), 318

**Invasion resistance**

Plant functional group diversity as a mechanism for invasion resistance (Pokorny et al.), 448

**Invasive**

Bullying the bullies: the selective control of an exotic, invasive annual (*Rapistrum rugosum*) by oversowing with a competitive native species (*Gaillardia pulchella*) (Simmons), 609

**Invasive grasses**

Experimental restoration of an indigenous Hawaiian grassland after invasion by Buffel grass (*Cenchrus ciliaris*) (Daehler and Goergen), 380

**Invasive plants**

Restoration of arthropod assemblages in a *Spartina* salt marsh following removal of the invasive plant *Phragmites australis* (Gratton and Denno), 358

**Invertebrate predators**

Clay-turbid interactions may not cascade—a reminder for lake managers (Horppila and Liljendahl-Nurminen), 242

**Iowa**

Restoring lepidopteran communities to oak savannas: contrasting influences of habitat quantity and quality (Summerville et al.), 120

**Iroquois**

Reestablishing roots of a Mohawk community and a culturally significant plant: Sweetgrass (Shebitz and Kimmerer), 257

**K- and r-selected**

Using agent-based models to aid reef restoration: enhancing coral cover and topographic complexity through the spatial arrangement of coral transplants (Sleeman et al.), 685

**Kansas**

Spatial distribution of *Spartina pectinata* transplants to restore wet prairie (Fraser and Kindscher), 144

**Karner blue butterfly**

Maintaining critical habitat in a heavily managed landscape: effects of power line corridor management on Karner blue butterfly (*Lycaeides melissa samuelis*) habitat (Forrester et al.), 488

- La Niña**  
A climate-based approach to the restoration of fire-dependent ecosystems (Beckage et al), 429
- Lake eutrophication**  
Hydrologic regime controls soil phosphorus fluxes in restoration and undisturbed wetlands (Aldous et al), 341
- Lake Pontchartrain**  
A model to estimate potential submersed aquatic vegetation habitat based on studies in Lake Pontchartrain, Louisiana (Cho and Poirrier), 623
- Land use**  
Forest restoration in urbanizing landscapes: interactions between land uses and exotic shrubs (Borgmann and Rodewald), 334
- Landscape**  
Importance of hydrologic and landscape heterogeneity for restoring Bank Swallow (*Riparia riparia*) colonies along the Sacramento River, California (Moffatt et al), 391
- Landscape rehabilitation**  
Effects of sowing treatment and landscape position on establishment of the perennial Tussock grass *Theragra triandra* (Poaceae) in degraded *Eucalyptus* woodlands in southeastern Australia (Cole et al), 552
- Lassen National Forest, California**  
Removal of encroaching conifers to regenerate degraded aspen stands in the Sierra Nevada (Jones et al), 373
- Legume**  
Incorporating restoration in sustainable forestry management: using pine-bark mulch to improve native species establishment on tephra deposits (Blanco-García and Lindig-Cisneros), 703
- Lespedeza capitata**  
Aboveground biomass removal by burning and raking increases diversity in a recon-
- structed prairie (Tix and Charvat), 20
- Life history strategies**  
Using agent-based models to aid reef restoration: enhancing coral cover and topographic complexity through the spatial arrangement of coral transplants (Sleeman et al), 685
- Limestone prairies**  
Planning for restoration: a decision analysis approach to prioritization (Cipollini et al), 460
- Limestone sand**  
The effects of doubling limestone sand applications in two acidic southwestern Pennsylvania streams (Keener and Sharpe), 108
- Litter**  
Aboveground biomass removal by burning and raking increases diversity in a reconstructed prairie (Tix and Charvat), 20
- Fire and litter effects on seedling establishment in western Oregon upland prairies (Maret and Wilson), 562
- Living fences**  
Establishment and growth of living fence species: an overlooked tool for the restoration of degraded areas in the tropics (Zahawi), 92
- Local adaptation**  
"How local is local?"—a review of practical and conceptual issues in the genetics of restoration (McKay et al), 432
- Local genotypes**  
Flowering phenology and genetic similarity among local and recently introduced populations of *Andropogon gerardii* in Ohio (Selbo and Snow), 441
- Lomandra sp.**  
Residual effects of glyphosate herbicide in ecological restoration (Cornish and Burgin), 695
- Longleaf pine**  
Restoring fire to long-unburned *Pinus palustris* ecosystems:
- novel fire effects and consequences for long-unburned ecosystems (Varner et al), 536
- Lonicera**  
Forest restoration in urbanizing landscapes: interactions between land uses and exotic shrubs (Borgmann and Rodewald), 334
- Louisiana**  
The potential for created oyster shell reefs as a sustainable shoreline protection strategy in Louisiana (Piazza et al), 499
- Lupinus perennis**  
Maintaining critical habitat in a heavily managed landscape: effects of power line corridor management on Karner blue butterfly (*Lycaeides melissa samuelis*) habitat (Forrester et al), 488
- Macroinvertebrates**  
The effects of doubling limestone sand applications in two acidic southwestern Pennsylvania streams (Keener and Sharpe), 108
- Marine commerce managed areas**  
Sustainable coastal development: the dual mandate and a recommendation for "commerce managed areas" (Weinstein and Reed), 174
- Metapopulation**  
Importance of hydrologic and landscape heterogeneity for restoring Bank Swallow (*Riparia riparia*) colonies along the Sacramento River, California (Moffatt et al), 391
- Microbial biomass carbon**  
Hydrologic, edaphic, and vegetative responses to microtopographic reestablishment in a restored wetland (Bruland and Richardson), 515
- Microsite strategy**  
Natural colonization of plants on five lead/zinc mine tailings in southern China (Shu et al), 49
- Microsite variation**  
The restoration of degraded mountain woodlands: effects of

- seed provenance and microsite characteristics on *Polyplepis australis* seedling survival and growth in central Argentina (Renison et al), 129
- Microtopography**  
Hydrologic, edaphic, and vegetative responses to microtopographic reestablishment in a restored wetland (Bruland and Richardson), 515
- Millipedes**  
Coastal dune forest development and the regeneration of millipede communities (Redi et al), 284
- Mine spoil**  
Effects of multispecies clumping on survival of three succulent plant species translocated onto mine spoil in the Succulent Karoo desert, South Africa (Blignaut and Milton), 15
- Mire**  
*Polytrichum strictum* as a solution to frost heaving in disturbed ecosystems: a case study with milled peatlands (Groeneweld and Rochefort), 74
- Mojave Desert**  
Habitat restoration as a means of controlling non-native fish in a Mojave Desert oasis (Scopettone et al), 247
- Monitoring**  
Assessing simple versus complex restoration strategies for industrially disturbed forests (Rayfield et al), 639
- Moorland pools**  
Catchment liming to restore degraded, acidified heathlands and moorland pools (Dorland et al), 302
- Moths**  
Restoring lepidopteran communities to oak savannas: contrasting influences of habitat quantity and quality (Summerville et al), 120
- Mountain woodlands**  
The restoration of degraded mountain woodlands: effects of seed provenance and microsite characteristics on *Polyplepis australis* seedling survival and growth in central Argentina (Renison et al), 129
- Mowing**  
Aboveground biomass removal by burning and raking increases diversity in a reconstructed prairie (Tix and Charvat), 20
- Dionaea muscipula* (Venus flytrap) establishment, release, and response of associated species in mowed patches on the rims of Carolina bays (Lukens), 678
- Mulching**  
Incorporating restoration in sustainable forestry management: using pine-bark mulch to improve native species establishment on tephra deposits (Blanco-García and Lindig-Cisneros), 703
- Multiattribute analysis**  
Planning for restoration: a decision analysis approach to prioritization (Cipollini et al), 460
- Multivariate**  
Assessing simple versus complex restoration strategies for industrially disturbed forests (Rayfield et al), 639

- brush steppe in northwestern Colorado (Paschke et al), 545
- Smoldering duff combustion**  
Restoring fire to long-unburned *Pinus palustris* ecosystems: novel fire effects and consequences for long-unburned ecosystems (Varner et al), 536
- Soaking**  
Responses of nondormant black willow (*Salix nigra*) cuttings to preplanting soaking and soil moisture (Pezeshki et al), 1
- Society**  
On the cusp of restoration: science and society (Turner), 165
- Sodic soil**  
The role of revegetation for rehabilitation of sodic soils in semi-arid subtropical forest, India (Tripathi and Singh), 29
- Soil amelioration**  
The role of revegetation for rehabilitation of sodic soils in semi-arid subtropical forest, India (Tripathi and Singh), 29
- Soil amendment**  
Long-term effects of biosolids on revegetation of disturbed sagebrush steppe in northwestern Colorado (Paschke et al), 545
- Soil carbon**  
Diminishing spatial heterogeneity in soil organic matter across a prairie restoration chronosequence (Lane and BassiriRad), 403
- Soil fertility**  
Soil biological and chemical properties in restored perennial grassland in California (Potthoff et al), 61
- Soil heterogeneity**  
Diminishing spatial heterogeneity in soil organic matter across a prairie restoration chronosequence (Lane and BassiriRad), 403
- Soil heterogeneity effects on tall-grass prairie community heterogeneity: an application of ecological theory to restoration ecology (Baer et al), 413
- Soil inorganic nitrogen**  
Restoration of native perennials in a California annual grassland after prescribed spring burning and solarization (Moyes et al), 659
- Soil microbial biomass**  
Soil biological and chemical properties in restored perennial grassland in California (Potthoff et al), 61
- Soil moisture**  
Responses of nondormant black willow (*Salix nigra*) cuttings to preplanting soaking and soil moisture (Pezeshki et al), 1
- Restoration of native perennials in a California annual grassland after prescribed spring burning and solarization (Moyes et al), 659
- Soil nitrogen**  
Diminishing spatial heterogeneity in soil organic matter across a prairie restoration chronosequence (Lane and BassiriRad), 403
- Soil nutrients**  
Establishment of a vegetation cover on tundra kimberlite mine tailings: 1. A greenhouse study (Reid and Naeth), 594
- Establishment of a vegetation cover on tundra kimberlite mine tailings: 2. A field study (Reid and Naeth), 602
- Soil organic matter**  
Diminishing spatial heterogeneity in soil organic matter across a prairie restoration chronosequence (Lane and BassiriRad), 403
- Soil pH**  
Are sulfurous soil amendments ( $S^0$ ,  $Fe^{(III)}SO_4$ ,  $Fe^{(III)}SO_4$ ) an effective tool in the restoration of heathland and acidic grassland after four decades of rock phosphate fertilization? (Tibbett and Diaz), 83
- Soil properties**  
Hydrologic, edaphic, and vegetative responses to microtopographic reestablishment in

- a restored wetland (Bruland and Richardson), 515
- Soil structure**
- Establishment of a vegetation cover on tundra kimberlite mine tailings: 1. A greenhouse study (Reid and Naeth), 594
- Establishment of a vegetation cover on tundra kimberlite mine tailings: 2. A field study (Reid and Naeth), 602
- Soils**
- Hydrologic regime controls soil phosphorus fluxes in restoration and undisturbed wetlands (Aldous et al), 341
- Solarization**
- Restoration of native perennials in a California annual grassland after prescribed spring burning and solarization (Moyes et al), 659
- Source-sink dynamics**
- Replacing sources with sinks: when do populations go down the drain? (Keagy et al), 529
- Spartina**
- The interaction between science and policy in the control of *Phragmites* in oligohaline marshes of Delaware Bay (Teal and Peterson), 223
- Restoration of arthropod assemblages in a *Spartina* salt marsh following removal of the invasive plant *Phragmites australis* (Gratton and Denno), 358
- Species diversity**
- Patterns of plant species diversity in remnant and restored tallgrass prairies (Polley et al), 480
- Species evenness**
- Patterns of plant species diversity in remnant and restored tallgrass prairies (Polley et al), 480
- Species richness**
